

Type	Packaging
Brand	ROBOPAC
Model	ROTOPLAT TP 707.1 PVS
Year	2013
Condition	Very good

Characteristics

Semi-automatic machine with rotating table for wrapping with film. ROTOPLAT represents a point of reference for end-of-line packaging with table wrapping machines. The wide range of possibilities of choice of coil carriages, with or without pre-stretching, and of the modality for the control of the baling process, offers the maximum satisfaction of the requirements of the final customer.
