

Type	Labellers
Brand	HERMA
Model	H400 P 8R; H400 8L
Year	2007; 2008
Condition	Very good

Characteristics

A labeling machine or label applicator is basically composed of a labeling head with a system that detaches the label from the support paper and transfers it to the product. This system is widely used in production lines of different sectors, increasing productivity and minimizing costs and operator time.
