

Type	Conveyor
Brand	PROCOMAC
Year	2017
Condition	As new

## Characteristics

Air conveyor for bottles.

This system transports and accumulates the bottles at high speeds. The bottles pass through a perforated plate, specially designed and are propelled by a flow of air at low pressure.

Advantage:

Low cost, minimum maintenance.

Great flexibility / high line speeds.

Fast feeding system for lots of one to several lines.

It allows inclined transport to save important slopes in small spaces.
